

Is your construction project \$50,000 or less?

## Save Time and Money with the Under \$50K Program

Did you know that construction or alteration projects with an estimated cost of \$50,000 or less may be exempt from the OSHPD plan review process? You will still need a building permit prior to starting construction, but instead of OSHPD plan review, you can save time and money by submitting your project plans to OSHPD stamped and signed by a licensed design professional.

*To find out if your project qualifies or for more information on the program call us at: (916)-326-3608 or go online to [www.oshpd.ca.gov/FDD/Regulations/PINS/pin-36.pdf](http://www.oshpd.ca.gov/FDD/Regulations/PINS/pin-36.pdf).*
